

Community Building

Parents, students and staff

1. Classroom meetings
2. Peer mediation
3. Peer Support
(partners, circles, cooperative learning)
4. Accepting diversity and differences
5. Student Jobs

Summary

McCreedy Community High is dedicated to “**all students**” in preparing them to make a difference in their communities. We are working with families for the betterment of all and the community. We aim to always keep the lines of communication open with families, helping these individuals to feel

comfortable, welcomed and valued contributors in the development and education of their children. No student who enters through our doors will be turned away and their needs will be met by the planning of our dedicated staff. Emphasis is placed on classroom instruction and intervention. This is because we at McCreedy High believe that no student needs to fail before their learning needs are met.

Thanks to the families, staff and members of the community whose participation is helpful in the smooth operation of the program at McCreedy High.

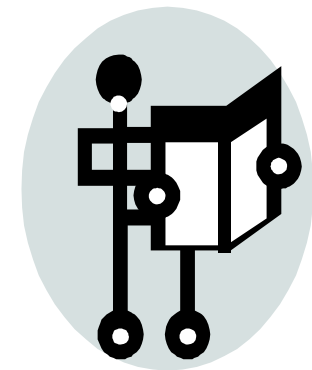

Coming Together Corporation

COMING TOGETHER CORPORATION

Coming Together Corporation

McCreedy Community

Motto

All children are important to us
 All children have the ability to learn
 All children will learn
 We will work together as a team in achieving students' goals

Meeting Students Needs

The staff of Coming Together Corporation recognizes that inclusion offers students a chance not only to learn but also to grow and become contributing members in the school community. The combination of both the special education program and resources allow students to achieve their learning goals. At McCreedy High all students are given the same opportunity to select the course of their own choosing. Parents are also involved in this decision making process. The special education staff provides the needed support for teachers in-order to ensure that all students are successful in their classroom. The goal of the teachers and special education staff is to provide each student with the tools needed to be successful member in both the schools community and the community in which students live

HONOURING ALL STUDENTS

School is a place where all students look forward to going, to enjoy the experience of meeting friends, building relationships and at the same time having educative experiences. To exclude some students from being around a diverse group would be limiting their experiences and their interactions.

One of the goals of Coming Together Corporation is to include all students – students with mild, severe or no disability - and to show other educators that inclusion can work if all individuals take an active role in working together with parents and students. All children are important and should be treated as such. All Students have the ability to learn and all students learn at there own pace.

McCreedy Community High School

McCreedy High is comprised of high quality & diverse staff that all believe in students' abilities to learn and are committed to removing educational inequities. Student population is 560
Teacher population 28

Self-Advocacy Strategy

1. Inventory Students:

- Strength
- Areas to improve or learn
- Goals
- Choice for learning and accomodation

2. Provide inventory

information

3. Listen and respond

4. Ask Questions

5. Name your goals
